# The President's Corner

## The Spirit of Sharing

Pres. Alberto "Bert" Talco

Rotary Greetings to everyone! Life may seem to be measured always in numbers. There are 39 days before the start of a New Year, 33 days before Christmas, 21 days before the Club's Christmas Party, 14 days before we will have our PN for RY 2010-2011 and 7 days before our trip to Kayapa. What is definite is, today we will be having another day of fellowship and learning!

Our meeting last Saturday, 15 November 2008 is one for the books! It is one of the rare occasions where two of our District Honchos, DG Jess Nicdao and DGE Oyan Villanueva were in attendance in our regular meeting! The Wolfson room was teeming with eager faces ready for the business of the day. A previously active balik-rotarian was inducted and is officially back in the fold. Welcome Rotarian Libby.

Our RCC representative's talk last Saturday, 15 November 2008, was a revelation and only made the membership truly proud of our Club! Many were not aware of the various accomplishments our Club, for the span of four terms, has done for the benefit of our adopted community, Luding! Our speaker, speaking in Ilocano, has made us feel and realize the great impact of Rotary in the lives of our partners in service. In line with this, the membership has pledged support to the further needs of the community such as electrification, tram line and micro credit.

Even our guests, DG Jess and DGE Oyan were impressed with what they have heard and even commented that this kind of project should be emulated by the other Rotary Clubs! We are but elated but just the same humbled - for service to the hilt is the Rotary Way!

As announced by DG Jess, the TRF awards is suspended in the meantime and is slated for 17 January 2009 to coincide with the Mid Year Review in Laoag, Ilocos Norte. Along with this he encouraged us to join the Rotary Caravan which is considered a "first" in the District in Public Relations.

DG Jess headed the meeting for the 3-H Grant immediately after our regular meeting along with Committee headed by Sec. Gérard. The technical aspect of the spirulina project was discussed and the Governor was very pleased with the initial input made.

Our TOYA (Ten Outstanding Youth Athletes Award) Committee headed by IPP Raffy is awaiting for the submission of the list of entries for evaluation prior to the final awarding at our regular meeting on 6 December 2008.

We are preparing for the Medical and Dental Mission on 29 November 2008 at Kayapa, Bakun, Benguet sponsored by our partner in service Hedcor. We continue to invite our untiring and cooperative partners, the Rotaracts from Saint Louis University, volunteer dental students, Rotary Anns and guests. Of course, we are assured by PP Chris Peralta and Rtn, Chris Faelnar, partners in community outreach programs, that everything will be taken cared of.

We are aware that the RCB Chorale are spending much of their time now practicing their Christmas carols for the upcoming Yuletide Season. The Board is inviting them on their regular monthly meeting on 26 November 2008 at the residence of PP Chris Peralta as the RCB Chorale's 'buena mano' caroling. Let us support this RCB Chorale's project as their commitment is one Paul Harris Fellow again for this year. We do appreciate, further, the joys and cheers they share with our families which are priceless gifts to each and everyone.

The Centennial Cluster project for January, 2009 was the main agendum during the Cluster Presidents' meeting last 20 November 2008 at Kubong Sawali. Centennial Commissioner, PP Mike Pearson was our guest and he was instrumental to the finalization of the Project. It will be a major community outreach program which will involve all

... continued on next page

*President's Corner... from previous page*

of the Cluster Rotarians and their partners in service. Tentatively, it is scheduled on the 15<sup>th</sup> to the 17<sup>th</sup> of January 2009. The RCB, being the Mother Club, is expected to lead the way.

Thank you PP Helmut and RAPP Louise for graciously opening your home for our first out-of-venue meeting. PP Helmut, with your knowledge, we will be enlightened as to the practical ways of saving and renewing energy. We will enjoy, likewise, the usual fellowship our club is known for. Happy birthday RAPP Louise—may God bless you with many kind and exciting years!

Thought for the week: ***“A bit of fragrance always clings to the hand that gives you roses.”*** - Chinese Proverb

## FYI from RI General Secretary

Ron Nethercutt  
 ROTI International Chair 07-09  
 3790 Fellowship Chair  
 RC Clark Centennial

Dear Rotarians,

The crisis in global financial markets continues and the value of Rotary's investments has declined in line with the markets. The performance of our funds for the first fiscal quarter ended 30 September was as follows:

Rotary International  
 \* General Fund: -9.4%

The Rotary Foundation  
 \* Annual Programs Fund: -9.6%  
 \* Permanent Fund: -10.1%  
 \* PolioPlus funds: 0.9%

Most of the losses to date are due to declines in the market prices of the securities held (often referred to as unrealized losses\*) and would only be realized if the securities are sold. To date, this has not been necessary. Given the global economic recession, it may be some time before we can fully recover these losses. All money for the eradication of polio is invested in U.S. Treasury securities and generates positive returns.

Rotary's cash flows continue to be strong and have been sufficient to pay for all operating and program expenses without having to sell investment securities at a loss. Both the Rotary Foundation Trustees and the RI Board of Directors made decisions at their recent board meetings consistent with this year's budgets and plans. Additionally, they are monitoring the financial reserves closely and took the following actions:

At their October meeting, the Trustees restored the Foundation's operating reserve to its minimum required level and requested staff to prepare a contingency plan that includes options for reducing expenditures, if necessary.

At its November meeting, the RI Board restored the investment earnings reserve to its maximum level. This reserve covers operating expenses during periods when investment earnings drop below budget. Additionally, the RI Finance Committee identified several cost-cutting measures for consideration when preparing the budget for fiscal 2009-10.

As noted in my communication of 29 September, Rotary's senior leaders, the Financial Services staff, Rotary's investment consultant, and I continue to closely monitor the financial markets. We are taking all possible steps to ensure that Rotary remains financially strong in this difficult economic environment.

Sincerely,

Ed Futa  
 General Secretary, Rotary International

# Club Speaker's Profile

## PP Helmut Schlaaff

Birthdate: December 17, 1944  
 Birthplace: Stuttgart, Germany  
 Married to: Dr. Minda Louise Estigoy  
 Schlaaff (23.November 1946)

# The 8<sup>th</sup> Bakun Medeleg Mission 2008

## A Nature Adventure Part III

### THE LIGHTER SIDE

PP Roger Naz

*To Labour with Love,  
The day is spent.  
One needs to only rest,  
but nourishment for the body,  
the heart and the soul.*

The day's labours over, the missionaries walked down the road to their accommodations.

The Bakun barangay hall is a modest 2-storey building, the first floor has a moderate size social hall which serves as reception, conference, dining aside from other functions, a large kitchen-dining area and separate bathroom, toilet amenities. On the second floor are three rooms and a living area, these served as the lodging for the Rotarians, Rotakids, and guests while the Rotaractors were housed in one of the elementary school buildings.

It was in these barangay social and dining halls where meals were served, and evening fellowship held.

The chefs of Bakun prepared a variety of international cuisine worthy of the best 5-star hotel kitchens and mouth watering entrees were served. For FRUSHSTUCK, there were OCHSENAUGE, HUEVO REVUELTO, ARROZ, PAN AMERICANO, MORTABELLA FRITO, TRANCHES DE CARNE de LATA, topped by brewed star bak-un steaming espresso.

Para ALMUERZO, on the dining tables were; CAMARON FRITO, TARO con GATANG CHILI, ENSALADA de CAMOTE, MALAGA SOUCHET, PESCADONG LAPU-LAPU SARSIADO AND ARROZ de BAKUN.

Eat your heart out baby!

On the menu for VESPERBROT were; LACHON dela TIERRA MARMITE, VERDURAS BONNE FEMME CON MARALI CARNE, GALINHA FRITO and for the PLAT DE JOUR was an exotic Cordillera Hors-Doeuvres specially cooked by LHC personnel, WHEW!!!

Note: Please consult with PP Gerard, PP Helmut and those who know Italian for foreign sounding terms.

MUCHAS GRACIAS LHC VISE PRESIDENTE SENIOR CRISANTO de FAELNAR por las COMIDAS QUALIDAD SOBRE SALIENTE!.

Dinner time was fellowship, jokes and banter, laughter and music.

After the sumptuous, diet busting feast, the Rotarians, Rotakids, Rotaractors, LHC personnel, guest, Bakun folks, all joined in the evening's revelry of wine and song. Energized the spirits and strengthened the bravado and voices of the stout-hearted in interpreting the songs of yesterday to the tunes of today.

With the young Rotaractors, the Rotarians notably with PP Diony's Jazzy crooning, Raffy Kapuno's bassy-baritone, PP Lito's tenor, Rtn. Chris Faelnar contemporary renditions, the social hall turned into a mini Broadway musical extravaganza.

It was about Cinderella hour when the soothing last strains of a country tune faded in the coolness of the evening. Amid the new moon, the revelers retired for the night.

As the missionaries entered the doors of slumber land to dreamland, quadraphonic sounds of logs being sawn reverberated in the walls and ceilings of the barangay hall.

Kabunian must have been smiling in his lofty mountain perch.

Two Echanted Evening!!!

Thank You for the music!!!

A DREAM MADE REAL!!!

# Scenes We Like To See

## Images from Last Week's Meeting 15 November 2008

Images by  
PP/Sec. Gérard Audineau

Captions by  
Pres. Bert Talco

For RCC Representative Caligtan,  
Rotary is just a "holding hands" away.

PP Chris is feeling PP Lito's song to the heart!

Rtn. Naas is making sure that Baby Rtn. Michel  
and Guest Michel are having a good time.

Rtn. Flo's finest moment just revealed that  
there's a lot of activity going on in the club.

Baby Rtn. Michel did his assignment:  
one banner from two German Rotary Clubs!

For Rtn. Angie, a medallion of a lifetime,  
personally awarded by DGE Oyan Villanueva.

Full House... it's easy really if we want to.

Did Rtn. Libby specifically request DGE Oyan for her induction?

The President is not exempted in the ice cream treat, right birthday boy?

A rare occasion: two governors, DG Jess and DGE Oyan, on our regular meeting. Come again!

RCC Caligtan and his community is a living proof of Rotary's A-1 performance.

## In Retrospect

### The Meeting That Was 15 November

Rtn. Pam Perkins

The Rotary meeting as usual started promptly coordinated by Ben Ladilad.

Pastor Herb Hayes as expected did his reverent invocation.

Lito Pangilinan and Diony Claridad did their melodious romantic entertaining songs. It seems they are both forever in love, isn't that grand?

David Ress ably introduced visiting Rotarians.

The finest moment was professionally and humorously accomplished by Flo Bayquen. Her opening statement was: This is a very significant moment to recognize members who have worked so hard to keep the club outstanding. You have to dig money out of your pocket which is hard now. Oh yes, Flo, it is a scary global recession era. However, this did not impede the generous giving done by our outstanding Rotarians.

Our raffle king Angie purchased a lot of beautifully stunning prizes. The lucky winners were: Cecil, Uwe, Michelle, Libby, Linda, Nova. Nova got the grand prize. I am jealous. It was an armored lantern made in Europe, gorgeous.

Members time were participated by: Gerard, his Paul Harris; Mia, her 13 December Rotarian Christmas Party reminder, Chris Faelnar, the 28 - 29 November Kayapa medical mission and lastly, Mike Pearson challenged the Rotarians to participate in our Baguio centennial project. The Lions, Soroptomist, Jaycees, etc. have already committed to a centennial project.

Introduction of Guest Speaker was ably done by Veeh despite the very short notice given. Kudos Veeh!

Libby was inducted by District Governor Elect Oyan Villanueva. Libby looked pretty and dashing in her beautiful lace like outfit.

Guest Speaker, Bando Caligtan, Luding representative did his speech in Ilocano. There were seven of us at the club meeting who did not understand a word he said. I believe he talked about Luding before and after rotary involvement. Oyan was very impressed. He said our club should have had more publicity and media exposure on this their grand project.

Meeting was fruitful.

# Health & Hunger Matching Grant (3-H Grant)

## Cause

Numerous typhoons and rise of rice selling price

## Problem

Many children malnourished on the District 3790

## Solution

We have to feed them + Vitamin A + Spirulina

## Effect

Children have poor result at school or don't go to school

### **The Philippines is suffering every year from numerous typhoons.**

Unfortunately these are often not reported in the international media and the damages caused are not known. The consequence is that the rich countries and the NGOs focus on other countries while disasters in the Philippines are forgotten. Therefore the population, deprived of substantial government intervention, is left to the mercy of local associations.

### **Who are the first victims: THE CHILDREN**

This year the typhoons destroyed many farms in the low land of our District while at the same time the price of the rice increased considerably. We observe that many children of these places are suffering of malnutrition with terrible consequences for their future.

### **What are the consequences?**

Many malnourished children have no more the capability to follow the program of their Elementary Schools. Or even worse, some children are not capable to go to school at all.

The RC Baguio has done a feeding program in Luding, village of mountain farmers, on RY 06-07. The principal of the Poyopoy Elementary School, where the children of Luding are going for schooling, working for more than forty minutes on a rough road (morning and evening), told us that she noticed that after the six and half months of feeding program the children have really become better in the school. This is very nice to lesson and a good incentive to go on with other feeding programs.

It is why, as Health & Hunger District Resource Officer for RI, for this RY 2008□2009, I want to engage the entire District and foreign Districts in a Health and Hunger Project:

HOW: by organizing feeding programs and distributing vitamin A and Spirulina.

The money for the Health and Hunger Matching Grant would be divided as follow:

Organization of Feeding Programs + distribution of vitamin A.

Construction of artisanal Spirulina farms for the distribution of Spirulina.

### **What is Spirulina?**

Spirulina is believed to have been a food source for the Aztecs and other Mesoamericans until the 16th century. Spirulina may have an even long history in Chad, as far back as the 9th century. Spirulina is an algae which contains an unusually high amount of protein, between 55% and 77% by dry weight, depending upon the source. It is a complete protein containing all essential amino acids. Spirulina is a natural food. It has not been genetically modified. Fortunately Spirulina grows in highly alkaline and salty waters where microorganism harmful to humans cannot grow: pH over 10 and total salinity from 8 to 60 grams of salt per litter and temperature between 25 and 40 degrees centigrade (best at 35 degrees). Most cultivated Spirulina is produced in open channel raceway ponds, with paddle□wheels used to agitate water.

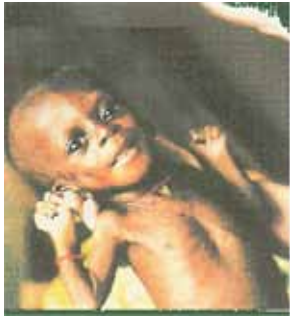

*Spirulina helps to bring sickly children back to good health, and to keep healthy children healthy.*

Profound malnutrition, if the child lives, causes mental and physical handicapping which nullify the advances offered by education. How much does that cost a country? A healthy child can gain much for its country.

Early in the nineteen sixties the scientific community awakened to the fact that Spirulina can be eaten and that it contains large amount of the most important nutrients for human health.

There are many reasons, but there is no good reason, why children must suffer from malnutrition. We have seen this kind of picture so often that it hardly attracts our attention:

Child with disease before use of Spirulina

Same child after 3 months with Spirulina

All these can be provided in a spoonful of Spirulina each day. Malnutrition usually involves also a lack of calories which are obtained through energy foods such as cereals, fats and oils.

SPIRULINA, or its prototype ancestor, has been round for over 3 billion years.

We use to call it “blue green algae” but more correctly it is a cyan prokaryote - a billion years more primitive than algae or green plants. And it is the difference between Spirulina and our ordinary foods that makes it so interesting.

Its contains all the essential proteins, vitamins, non-saturated fatty acids and minerals, **AND IT CAN BE USED AS EMERGENCY FOOD FOR REFUGEES, MALNOURISHED AND UNPROTECTED CHILDREN.**

**A Matching Grant of US\$ 300,000.00 will be necessary to realize this ambitious project.**

**This means that we have to receive engagements from our Partners Districts for a total amount of US\$ 30,000.**

**The cooperation of foreign Districts is compulsory for the success of this Health and Hunger Matching Grant.**

We have created a Committee for this Matching Grant with the participation of Doctors:

Chair: PP Gérard Audineau Guests of Honor: Governor Jess Nicdao, DGE Oyan Villanueva

Members: Pres. Bert Talco (Civil Engineer), VP Marilyn Barredo (Banker), PP Linda Winter (Doctor Dentist), Dir. Ben Ladilad (Director DOST for Cordillera), Rtn. Joe Ursua (Medical Doctor), Rtn. Dhory Vicencio (Manager),

Rtn. David Rees (Quantity Surveyor), Treas. Uwe Koeller (Committee Sec.), Dr. Mimi Mabanta-Nicdao (Pediatician) and Dr. Micaela Defiesta (Nutritionist), including the Assistant Governors of our District 3790.

PP Gérard Audineau - RC Baguio - D 3790

RI Health & Hunger District Resource Officer for RY 08-09

**OBJECT OF ROTARY**

The Object of Rotary is to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

**FIRST.**

The development of acquaintance as an opportunity for service.

**SECOND.**

High ethical standards in business and professions; the recognition of the worthiness of all useful occupations; and the dignifying of each Rotarian's occupation as an opportunity to serve society;

**THIRD.**

The application of the ideal of service in each Rotarian's personal, business, and community life;

**FOURTH.**

The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional persons united in the ideal of service.

**FOUR-WAY TEST OF ROTARY**

Of all the things we think, say or do:

- 1** Is it the TRUTH?
- 2** Is it FAIR to all concerned?
- 3** Will it build GOODWILL and BETTER FRIENDSHIPS?
- 4** Will it be BENEFICIAL to all concerned?
